

Secure, Effective, Transparent:

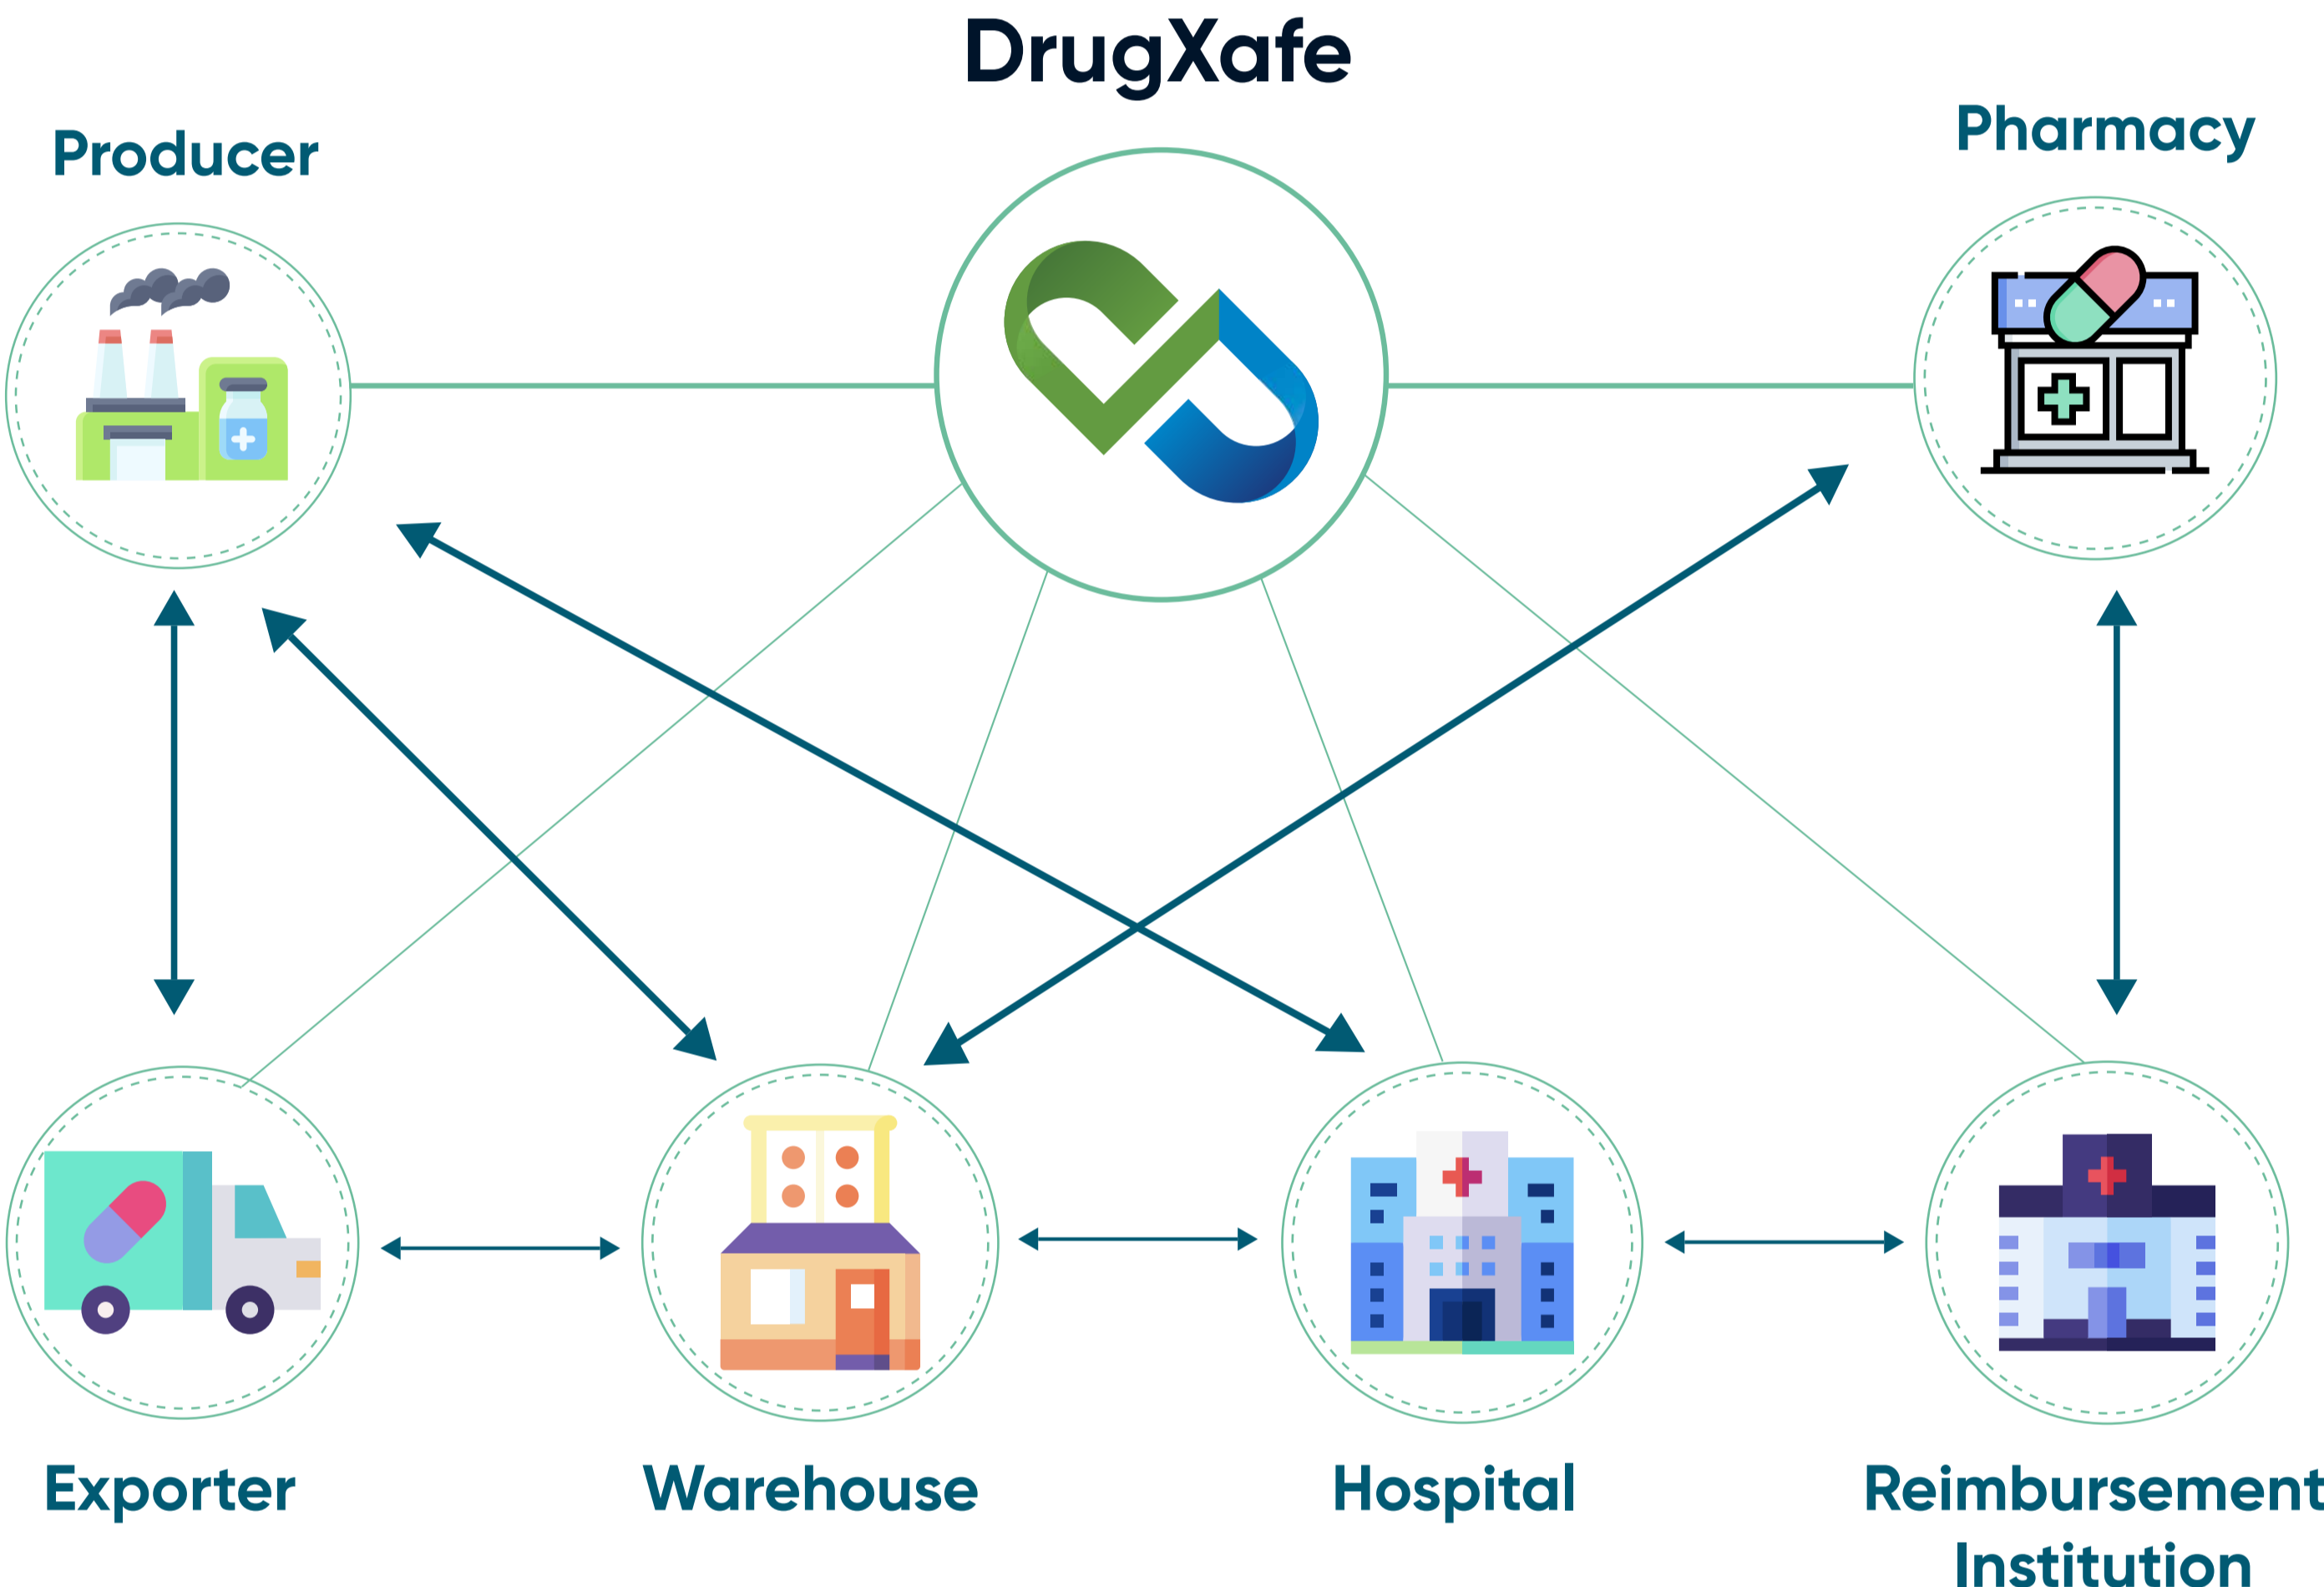

Revolutionizing Drug Safety with The Pharmaceutical Track and Trace System, Branded as DrugXafe

The Pharmaceutical Track and Trace System, branded as DrugXafe, provides drug safety and prevents counterfeiting. The system follows the supply chain from production and importation to the end-user using the 2D Data Matrix electronic product code.

But who constitutes the stakeholders and what mechanisms are in place for their coordination?

Let's break it down with figures;

- 25K+** Pharmacies
- 408** Manufacturers
- 592** Wholesalers
- 16K+** Consumption Centers
- 57** Exporters
- 46** Reimbursement Institutions

The Pharmaceutical Track and Trace System, branded as DrugXafe, is used by 50,000+ stakeholders in Türkiye and is also used in Qatar and Saudi Arabia.

And Why Are We Doing This?

Because we want to shape the future together,
as always!
